

# Health Connections

Blending healthcare expertise with employer needs

Employers want results! Employers want a comprehensive relationship with a health care provider that truly understands the unique challenges they are facing. These challenges are in the areas of safety, workers compensation, general health insurance, productivity, absenteeism, presenteeism, disability costs and legal issues. Partnering with Health Connections will allow you to provide your local employers with real solutions to these challenges.

Health Connections provides a unique blend of services focused on the implementation of research-based employee health and risk management programs, streamlining the health care delivery process, and the integration of our proactive programs with a traditional occupational health and safety service line. In addition, we also offer a host of services to assist you in getting your outpatient therapy department to be the shining star of your program or facility.

The Health Connections' team of experts is highly qualified in areas including business development, program operations, clinical therapy, and employee health and wellness programs. Health Connections is committed to providing solutions, not services. What does this Health Connections' commitment mean?

**To you, our hospital client:** An increased bottom line through customizable solutions that create a highly effective employee health and risk management program. We can accomplish this with a faster implementation process, and lower cost than you would be able to achieve independently. We have an existing platform with proven success that will give you increased credibility in your market place.

**To your employer clients:** A group of medical providers focused on prevention, and the reduction of the longevity of injury cases. The integration of workers compensation and general health risk management programs, with the potential for insurance premiums or costs to be reduced.

**To their employees:** Individualized risk assessments and intervention strategies, resulting in an enhanced quality of life, improved job performance and increased job satisfaction.

18642 Santa Maria Drive  
Baton Rouge, LA 70809
