# Savings Potential

A medical practice treating 4,100 work comp patients annually with \$1.7 million in billed charges collected \$1.5 million. 45% of receivables were >90 days. Their annual in-house direct claim processing costs included:

**Implementation of UHS services combined with payment guarantees cuts processing costs for this practice and significantly improves cash flow and reduces A/R days. Processing costs drop \$9,000, A/R >90 days decreased to 7%, and doubtful accounts declined to \$7,500 from \$78,708.**

**This highlights the ability of UHS to lower processing costs, reduce A/R days, and improve cash flow. The ability of the program to impact the bottom line and more efficiently manage work comp claims is why healthcare organizations across the country implement our services and expertise.**
